

## N.C. Jindal Public School, Punjabi Bagh New Delhi

### A Report on International Tiger Day

International Tiger Day is observed every year on July 29 to promote conservation of the tiger's natural habitat and raise awareness about tiger conservation. Keeping in view the need of protecting the '*umbrella species*' of the world, the students of N.C. Jindal Public School, Punjabi Bagh, New Delhi came together to raise consciousness for this charismatic but critically endangered species as, India, is a home to nearly 75% of the Tiger population.

The school organized a Poster Making Competition for the students of classes VI and VII on July 21<sup>st</sup> 2021. The competition witnessed participation of about 65 students in all, making it a great success. The students showcased their care, concern and the need to conserve tigers with their exemplary artistic skills. Jhanak Bhalla of VIC exhibited the dire need for ecological balance by striking a perfect blend of colors. Rihan Dhaka VII A also captured the attention of the viewers with the beautiful portrayal of a thriving ecosystem.

This initiative turned out to be extremely fruitful as the students developed sensitivity towards nature and wildlife. They learnt that it's imperative not just to protect the Tigers but also preserve their natural habitat where they can roam, roar and rule.
