

N.C. JINDAL PUBLIC SCHOOL, PUNJABI BAGH, NEW DELHI

A REPORT ON 'SAY NO TO PLASTIC' CAMPAIGN

“Plastic pollution free world is not a choice but a commitment to life - a commitment to the next generation.” – **Amit Ray**,

Plastic Pollution is affecting the whole earth, including mankind, wildlife, and aquatic life. With an objective to make everyone realize the harmful impact it has on our lives and urge them to adopt a plastic-free life style, N.C.Jindal Public School, Punjabi Bagh , New Delhi initiated the campaign 'Say No to Plastic' , as per the guidelines issued by the Directorate of Education, on a virtual platform. The students of classes III to XII undertook a pledge to protect the environment from the toxic plastics by keeping their homes free of plastic materials like Polythene bags, boxes, bottles, glasses, plastic containers, straws etc. and also promised to spread awareness among their friends and relatives.

The interactors showed their deep concern towards environment by designing e-posters which brought out their reflective ideas on how plastic is polluting oceans, lands, our biodiversity, human health and pristine beauty of the earth. The posters were a perfect blend of imagination and technical acumen.

Rota Kids Club members of Class V made beautiful posters with a splash of colours and displayed the things made from single-use plastic. They also took a pledge to motivate each individual to take necessary steps to stop plastic pollution. They emphasized the hazards caused by plastic in human and marine life. This activity helped them understand the need to take an immediate action to save our planet from plastic pollution.

N. C. Jindal Public School, Punjabi Bagh is a plastic- free school. The school has integrated numerous activities and events in the school Annual Activity Plan to generate environmental consciousness among its stakeholders. To spread awareness regarding the ill effects of using plastic and ways to avoid plastic, a plethora of activities were conducted in various classes:

- Videos on harmful effects of plastic and alternatives available were showcased to the students of Gardening from class VI and VII
- Quiz on the impact of plastic on environment was conducted for the Gardening students of Classes VI and VII
- The students of Classes VI to IX made beautiful Paper-Bags as a substitute for plastic bags.
- The students of Class VII reused plastic waste in making other useful items.
- The students of class VIII, along with teachers made ecobricks.

The campaign shall continue in a fervent spirit with multiple activities aimed at bringing collective consciousness for a plastic-free world.

A MAJOR THREAT FOR ENVIRONMENT

PLASTIC POLLUTION

WHY NO TO PLASTIC?

Say no to plastic bags as plastic bags are threat to our environment because a single plastic bag takes up to 1000 years to decompose as it contains non-renewable petrochemicals. Hence plastic bags will stay for a more extended period and damage our Mother Nature.

SAY NO TO PLASTIC.

SAY NO TO PLASTIC.

A SOLUTION FOR REDUCING PLASTIC POLLUTION

PROBLEM

Health and beauty products are usually made from non-biodegradable plastics and are disposed of frequently.

SOLUTION

Replace your plastic toothbrush with an eco-alternative, like bamboo. Instead of using disposable plastic razor blades, invest in an electric one. Finally, avoid skincare products with plastic microbeads.

If you cannot Recycle or Reuse plastic then, REFUSE it!

Plastic straws are really bad for the ocean polluting the water and killing marine life. By 2050, there could be more plastic in the ocean than fish!

Reduce, Reuse and Recycle (3R's)

RECYCLE FOR THE LIFECYCLE

Help the Earth rejuvenate Say No to Plastics!

Plastic pollution is a problem that the whole world is facing together. Plastic waste does not degrade at a sustainable rate. The more we continue to make, the more waste continues to build up. Each single-use plastic item we use today is adding to the mass problem of tomorrow and beyond.

**REDUCE
