

## International Day of Justice

The students of N.C.Jindal Public School celebrated the International Justice Day on July 17, 2021. The International Day of Justice marks the coming together of people from all walks of life to support the idea of Justice and ensuring that peace is never jeopardized. To commemorate this day, a poster making event was organized for Classes VI to X by the Art Department. The event received an overwhelming response from the students. The way the subjective ideals of the day transformed into magical, visual and artistic expressions was praiseworthy. The aesthetic exploration combined with academic learning made it a unique Art Integrated Learning activity. The celebration reminded all about the system of social justice and renewed their sense of commitment towards the same.
