A REPORT OF INTER-HOUSE SCIENCE EXPERIMENT COMPETITION

"Knowledge is the only kind of wealth that multiplies when you give it away".

N.C Jindal Public School, Punjabi Bagh, New Delhi continually endeavours to make learning fun-filled and interesting for the students. Elevating the quotient of interest and curiosity for experimentation, the Inter-House Science Experiment Competition- **MANTHAN** was organised on 15th July 2022 for the students of Classes VI-VIII and IX-XI. Two students from each category participated from each house.

The students of all the houses explained their innovative ideas and concepts by presenting a fruit or vegetable themed experiment/activity. Along with the scientific concept, each team also highlighted the benefits of including fruits and vegetables in our diet. Team members from all the houses participated enthusiastically and displayed an intensive spirit of competition to win laurels for their respective houses.

The event successfully inculcated a spirit of creative thinking, scientific enquiry and analytical thinking in the minds of young students. The activity provided a platform for budding scientists to develop the skills of experimentation, research and innovation.

The results of the competition are as follows –
