

NCJPS-MUN 2023

17th – 18th August, 2023

It is our great honour and privilege to invite you to the Second Edition of NCJPS-MUN 2023 to engage the young minds in intellectual discussions and deliberations for a positive change at the global level. It is our humble endeavour to empower the young students with the right skills and abilities for their constructive contribution.

India's G20 vision for a harmonious world is based on four major pillars – sustainable development, inclusive growth, shared prosperity and technological advancement. These four pillars are interdependent and sustainability is the foundation of these pillars. NCJPS-MUN is an initiative to manifest India's vision and achieve the core values embedded in UN Sustainable Development Goals (SDGs).

We are striving to make education more experiential, holistic, integrated, inquiry-driven, discovery-oriented and learner-centered. NCJPS-MUN shall make our students intellectually motivated, critically adaptive and futuristically advanced as envisioned in NEP 2020.

We hope and believe that our vision shall see its manifestation with our unabated enthusiasm for the upcoming conference scheduled on 17th and 18th August 2023.

We sincerely solicit your unstinted support and cooperation for the grand success of the "NCJPS-MUN 2023".

ABOUT NCJPS MUN

N.C. Jindal Public School Model United Nations is a two-day international relations simulation for schools being held on 17th and 18th August, 2023. At NCJPS-MUN 2023, the delegates shall gain insight into the workings of the United Nations and the dynamics of international relations by assuming the roles of UN representatives and members of other international bodies and national cabinets. NCJPS-MUN,2023 is an exciting opportunity for students to debate issues that confront the world leaders and draft resolutions in response to the global issues.

Model United Nations offers opportunities for deliberation, diplomacy and constructive debate, providing delegates with the skills to become future change-makers. Preparing and participating in a MUN helps students develop leadership skills, research, Position Paper writing, public speaking and problem-solving skills. Moreover, coming up with solutions that are acceptable to a majority of the representatives also inculcates skills of negotiation, conflict resolution and cooperation. Delegates learn the importance of balancing national interests in consonance with the needs of the international community, while also learning about the powers and limitations of international negotiation.
